Disability Sports Australia invites councils across the country to partner with us in delivering Abilities Unleashed events.

Abilities Unleashed is a fully managed, community-focused program that gives residents with disability the chance to discover and participate in local sport and recreation opportunities.

Abilities Unleashed

**Disability

Australia**

- Abilities Unleashed is a fully facilitated “come-and-try” sports day that introduces people with disability to a wide range of local sport and active recreation opportunities in a fun, supportive environment.
- Each event is inclusive, experiential and enjoyable. It provides a safe first step into sport for people who may have previously felt excluded.
- Participants are encouraged to try activities they enjoy, build confidence, connect with others and discover their place in the sporting community.
- Events are tailored to each location and delivered in collaboration with local clubs, coaches and providers. This ensures a direct pathway into ongoing participation that reflects the opportunities available in the community.
- By connecting people with disability to regular, local sporting opportunities, Abilities Unleashed contributes to greater inclusion, improved health outcomes and stronger community engagement.
